The Czechoslovak Area Genealogy Club (CAGC) is a non-profit, volunteer organization, dedicated to genealogical research of peoples of the geographical area formerly known as Czechoslovakia. This includes Bohemia, Moravia, Silesia, Slovakia and Ruthenia. CAGC encourages cooperative research, but does not provide professional (for fee) research services. Website: Cage-ca.org

Meetings are on-hold due to Covid-19, but usually held on the first Sunday of the following months: February, April, June, August, October and December, at 1:30 pm for lunch at the Jagerhaus Restaurant, 2525 East Ball Rd, Anaheim, CA 92806, guests are welcome. We hope to “see” you all at future meetings. If you decide to attend a meeting please be prepared to tell us a little bit about yourself and what surnames and ancestral villages you are researching. If you aren't doing any research but just want to meet some very nice people from the Czech and Slovak lands attend meetings anyway! We try to make the programs fun and interesting for everyone.

Plans for future CAGC Meeting Topic: “I found my record. Now how do I read it?” Date: TBD, 2021? @ 1:30 pm Speaker: TBD

FUTURE EVENTS:

- **Whittier Genealogical Society Seminar** (WAGS), Aug 15, @ 1pm Wagswhittier.org, via Zoom, speaker to be determined.
- **FEEFHS-**Foundation for Eastern European Family History CANCELLED Aug 3, 2020, Salt Lake City. FEEFHS.org
- **Folklore Festival-Czech--Slovak** San Diego/ La Mesa Annual POSTPONED May 2020.
- **Genealogy Jamboree** (Burbank): postponed until 2021.

MESSAGE FROM THE PRESIDENT

Hello everyone,

I hope you are all well and somehow surviving what the world is giving us right now! Everything we knew has been turned upside down and inside out! I recently had a doctor appointment, and was all set to go in with mask and temp check when they told me that they wanted to do a virtual meeting via Zoom! I told my doctor when we connected that I feel like I am living in a science fiction movie! If you belong to any groups that meet on a regular, or not so regular basis, and are meeting at all, it is likely you are meeting via this social media!

All the various groups I belong to are either meeting via Zoom, or not at all because of the nature of the group! What this does is provide a blessing to the curse that the pandemic has brought! Organizations that earlier I would have to go TO, are providing a way to attend by CONNECTING to Speakers can be part of the events even if the live across the country. Members can live anywhere, or be anywhere and attend meetings! This certainly saves time and money (transportation) but is a sad exchange for the personal contact of attending the event in person.

That being said, I am missing seeing all of you and the warmth that face-to-face meetings provide! It appeared for a while we might be over the worst and society was getting back to some sort of normal, but it appears that some people do not take the seriousness of the situation to heart and recently the statistics for California have gotten worse. This means it will be longer before we can even think of getting together. Since most of us are in that high risk area the government has defined, I don't want to have any of you in a potentially hazardous situation. But, would you be interested in meeting virtually via Zoom? It is easy for anyone to set up, allows anyone to schedule a meeting, allows a speaker to provide a program as if they were using a screen presentation, and eliminates infection potential. Please let me know if this is something you would participate in. It is free in 40 minute blocks for reasonable size group and comes via the internet to all computers.

If you would participate, we could have programs as if we were all together.... Just no good German food served, unless you get some take out! I would start with just an information exchange to make sure all know how it works.

I want to personally thank Frank Vogel for all that he has done for this organization over the years of its existence. I am sure you saw his email about the change in his life. There comes a time in all of our lives where we have profound changes...this is one in his. He not only helped get the organization on the road, but has provided assistance to me in multiple ways, has been a speaker, and a go to. I will miss seeing him at our 'in person' meetings, but perhaps he will attend any virtual meetings that we have.

I also want to thank those of you who have reached out with comments on my attempts to keep you all in the genealogical research loop and just keep your busy with other things to think of beyond the
Message from the President (cont.)

world/home space situation. Remember, you are all a part of the group and your contributions to it are appreciated... so if you find something that might be of interest, send it. And finally, and most heartily, I want to thank Mare for being our person in charge of communications! She is doing a wonderful job of directing emails, and in generating all sorts of information to be shared!

So, keep well, my friends, and think of what we can all do for each other to keep each other sane through this crazy situation! It will eventually not be a threat, but the world will have changed when we get back to "normal".

Annette

2020 – REVIEW OF PAST CAGC MEETINGS

Jan 2020, Genealogist Speaker Linda Serna gave a lively presentation as she acted out her detective role in “Genealogy as Detective Work”. Her handouts were very detailed and helped to remind us of the steps to keep us on track. She compared the skills used by both detectives and genealogists to solve mysteries and to reason through a genealogical challenge by using the tools of a detective and using indirect evidence. Linda Serna has been doing genealogy for 40 years and was privileged to work on the first season of Genealogy Roadshow on PBS. Besides belonging to several organizations, including the Genealogical Speakers Guild and National organization of Association of Professional Genealogists, she was the past program chair for the Orange County California Genealogical Society and past treasurer for the SCCAPG.

Welcome New Members!

HISTORY in 1968:

Twenty years after the end of WWII, in 1968 was the Warsaw Pact Soviet Union invasion of Czechoslovakia. Alexander Dubcek was the first Secretary of the Communist Party of Czechoslovakia (KSC) who made reforms where he removed state controls to allow political parties other than the communist party and freedom of speech and press.

Brezhnev, the new leader of the USSR, saw these reforms as a threat to the USSR.

GERMAN LANGUAGE in CZECH/SLOVAK REPUBLICS

400,000 Warsaw Pact troops invaded Czechoslovakia and the Czechs did not fight back. Dubcek and other Czech leaders were arrested. Aug 27, 1968 - Czech leaders returned and told the Czechs that they were ending many of their reforms. 1969 - Dubcek resigned and Brezhnev replaced him with loyal communist, Husak. (Reference: Wikipedia)

Czech/Slovak Map showing areas in purple where German language may be used.
GERMAN LANGUAGE IN CZECH/SLOVAK AREAS:
Austria, the Sudetenland (of what was Czechoslovakia) Bohemia, up until 1945 had well over 30% ethnic German population. Moravia had about 22%. (Reference: By Duncan B. Gardiner, Ph.D., Certified Genealogist)

Schreibübungen

www.kurrentschrift.net

On this page you can enter short texts, which will then be displayed to you after clicking on "Convert" in current script. Please remember the "s-rules". In order for the round s to be displayed within a word, please use the key s when entering the text where a round s would have to be written according to the s rules.

When is the spelling used for the "s"?
The round or end-s stands at the end of the word and as joint-s in compositions. The round s also stands if after the s follows a resylling starting with a colaut, such as -lein, -chen, -mus, etc. The long-s is at the beginning of the word and within a word.

For compound words, if one syllable ends with s and the next begins with s, the first is round and the second is long.

The double-s (in words that are not assembled in the place) is always long. The usual rules apply to the sharp ß. It should not be replaced by doubles. (See examples).

German language / German script
(reference: Wikipedia) Until the early 20th century, German was mostly printed in blackletter:

(mostly in Fraktur, but also in Schwabacher) and written in corresponding handwriting (for example Kurrent and Sütterlin).

These variants of the Latin alphabet are very different from the serif or sans-serif Antiqua typefaces used today, and the handwritten forms in particular are difficult for the untrained to read.

Kurrent is an old form of German-language handwriting based on late medieval
cursive writing, also known as Kurrentschrift, deutsche Schrift ("German script") and German cursive. Over the history of its use into the first part of the 20th century, many individual letters acquired variant forms. German writers used both cursive styles, Kurrent and English cursive, in parallel: location, contents, and context of the text determined which script style to use.

Sütterlin is a modern script based on Kurrent that is characterized by simplified letters and vertical strokes. It was developed in 1911 and taught in all German schools as the primary script from 1935 until the beginning of January 1941.

The Immigrant Genealogical Society
https://immigrantgensoc.org/

Toni Perrone, pictured above, has done presentations for So. Calif. Genealogy groups.

The Immigrant Genealogical Society (IGS) was founded in 1982 to help Americans trace their ancestors’ origins, particularly in the German speaking areas of Europe and the places in the world to which they migrated. The society maintains a genealogical research library, publishes a newsletter and two periodical journals, and offers searches of its holdings for users worldwide.

The library is physically located in Burbank, CA, 818-848-3122.

The Immigrant Genealogical Society is, since December 1985, an IRS recognized 501(c)(3) organization.

Czech/Slovak Events: St. John Paul II, Polish Center, 3999 Rose Drive, Yorba Linda, CA.

DNA COLUMN:

I4GG-International Genetic Genealogy Conference-Las Vegas, NV, was held in Feb 2020 this year. Colin Whitney, Educ. Dir. for SDGS listed some highlights from the conference:

- cM Total at FTDNA Inflated Because Include Small Segments
- Scapple Good Tool to use for Pedigree Charts
- 23&me has Good Ethnicity Painter
- Use Cluster tools of Matches to Average Relationships
- Use Thrulines at Ancestry to Find MRCA
- Use FamilySearch Tree as Search aid
- DNA2Tree & Genetic Affairs AutoTree Build Trees from Matches

About 30 Million People have DNA Tested
- Ancestry 15 Million
- 23&Me 10 Million
- MyHeritage 2.5 Million
- Gedmatch 1.0 Million
DNA (cont.)
Reminder, The DNAPainter Tool created by Jonny Perl is very helpful if you are just getting started with DNA and on that same site, you can find the famous Shared Centimorgan Project created by Blaine Bettinger. It is extremely helpful if you are trying to figure out all of the possible relationships one of your matches might be. 1C=1st cousin, 1C1R=1st cousin once removed, etc.

Join the Czech DNA Project on FamilyTreeDNA.com:  
The Czech DNA Project is part of a study designed to see if specific patterns emerge from correlating Czech surnames with Czech villages. The Project is growing with a count of 853! The Project welcomes those persons who can trace their origins to what is now known as the Czech Republic (Czechia). DNA testing of your Czech line is required to participate in this study. FTDNA accepts raw autosomal uploads of DNA results for persons who tested at other companies. www.familytreedna.com/groups/czech
WEBINARS:

Legacy Family Tree Webinars has a webinar list showing: Familytreewebinars.com
The Legacy webinars are free for a week after live presentation. Familytreewebinars.com/arm.chived_webinars bydates.
